

# CIRLS™ 123A / AA BATTERY BOX.

The CIRLS™ 123A / AA Battery Box (NSN: 6130-01-623-4297) is designed for use with the Cejay family of CIRLS Drop Zone (DZ), Landing Zone (LZ) and Airfield marker systems.

Powered by Six (6) AA or Three (3) CR123A batteries, the CIRLS 123A / AA Battery Box can provide up to 100+ hours of continuous operation for our CIRLS IR strobe. The CIRLS 123A / AA Battery Box also features a constant voltage management system, to ensure that the light output from the CIRLS light head is consistent over the life of the batteries.

The CIRLS 123A / AA Battery Box is weatherproof and features a ruggedized, recessed switch that can be operated with gloved hands. The CIRLS 123A / AA Battery Box provides flip-down attachment points for securing the battery box to objects while its one piece design ensures no lost components. An optional Accessory Pack with Tie down Stakes and Strap (905111A) can also be used to secure the battery box in high winds or rotor wash.
